

StormPRO®

For culverts, channel replacement and any stormwater applications.

LIGHTWEIGHT

EASY TO HANDLE

COST EFFECTIVE TO INSTALL

ABRASION RESISTANT

LONG LIFE PRODUCT

StormPRO®

INTRODUCTION

Vinidex StormPRO® pipes are twin-wall, corrugated polypropylene pipes suitable for stormwater, drainage and farm culvert applications, manufactured in accordance with AS/NZS 5065.

Recognised by a black coloured outside surface and a light grey inside surface, the product is available in sizes ranging from 150mm to 900mm. This advanced pipe system is complemented by a full range of fittings in all sizes.

By combining the strength and toughness of advanced polypropylene materials with the structured wall design, StormPRO® pipes provide an environmentally sensitive, cost-effective piping system suitable for a multitude of low pressure applications.

PRODUCT CHARACTERISTICS

Strength

- Manufactured from tough polypropylene
- Strong and robust - high stiffness to weight ratio
- Greater ability to resist deflection and deformation
- Benefits of a flexible pipe
 - structural integrity
- Minimal cover under road and rail culverts

Hydraulic Capacity

- Smooth bore for optimum performance
- Resistant to build-up for better flow

Light Weight

- Easy to handle and manoeuvre
- Can be man handled or with basic equipment
- Less requirement for heavy equipment
- Less chance of injury

Cost Effective Installation

- Easy to cut and join anywhere along length
- Quick and easy to install
- Easy to assemble and join
- Long lengths requiring less joints

Damage Resistance

- Resistant to ultraviolet light
- Durability against weathering
- Resistant to corrosion and high temperatures

Superior Joint Performance

- Simple and effective rubber ring joint system
- Rings do not roll and cannot be dislodged
- Leak tight and tree root resistant

Environmentally Sensitive

- Material Efficient
- Long life
- Recyclable at end of life

StormPRO® FOR LOW PRESSURE APPLICATIONS

Stormwater & Drainage
Road & Rail Culverts
Low Head Irrigation
Dam Transfers & Overflows
Channel Replacement
Flood Irrigation

StormPRO® PRODUCT LIST

The SN8 StormPRO® pipes are intended for stormwater and general drainage applications and have a black coloured outside surface and a light grey inside surface.

A full range of polypropylene fittings are available in all sizes.

Pipe

StormPRO® Polypropylene Pipe – Nominal 6m Length

Nominal Diameter	Product Code	Product Description
150	29411	150mm SN8 StormPRO® PP
225	29412	225mm SN8 StormPRO® PP
300	29413	300mm SN8 StormPRO® PP
375	29414	375mm SN8 StormPRO® PP
450	29415	450mm SN8 StormPRO® PP
525	29416	525mm SN8 StormPRO® PP
600	29417	600mm SN8 StormPRO® PP
750	29418	750mm SN8 StormPRO® PP
900	29419	900mm SN8 StormPRO® PP

Please refer to the StormPRO® & SewerPRO® Product Catalogue (VIN264) for a complete product listing.
