

Durapipe SuperFLO One-Step Solvent Cement

for reliable, leak-proof jointing of ABS pressure pipes

Vinidex Type P solvent cement is a specially formulated resin-based adhesive for joining PVC pipe and fittings. It is slower setting than Type N and suited for pressure applications in residential, commercial and industrial work such as water supply, irrigation and pools.

PART OF THE VINIDEX PIPE JOINTING FLUIDS FAMILY

- Conforms to AS/NZS 3879
- AS/NZS 4020 approved - suitable for use in contact with drinking water
- Watermark and ISO 9001:2008 accredited
- All packaging is Dangerous Goods approved
- Engineered cap to minimise the risk of leaks
- Range of sizes to suit any job
- Supplied with a natural bristle brush applicator cap for easy application
- Proven product performance over several decades in applications around Australia and overseas
- 2 year shelf life if unopened and stored in a cool, dry, well ventilated place out of direct sunlight

Technical Data

Size Range	125ml – 4L
Manufacturing Standard	AS/NZS 3879
Quality Management System	ISO 9001
Certificate Number	QEC0570 (SAI Global)

INGREDIENT	% WEIGHT
Butanone	50-100%

DRYING TIME	JOINT STRENGTH TO EXCEED
20 minutes	0.5 MPa
1 day	3 MPa
60 days	8 MPa

Vinidex Code	Volume	Min. (Pack) Quantity	Carton Quantity
82420	125ml	1	36
82422	250ml	1	36
82424	500ml	1	20
82426	1L	1	12
82428	4L	1	4
