

## BK Bactericidal Pipe Jointing Lubricant

for reliable, leak-proof jointing of PVC, StormPRO & StormFLO RRJ pipes and fittings

Vinidex BK bactericidal pipe jointing lubricant has been specifically formulated to act as an effective lubricant in the jointing of pipes that require the use of rubber ring joints. BK lubricant has been tested over three years both mechanically and chemically following requests from the Australian water industry for a more effective lubricant in all conditions.

### PART OF THE VINIDEX PIPE JOINTING FLUIDS FAMILY

- Conforms to WMTS 014:2016
- AS/NZS 4020 approved - suitable for use in contact with drinking water
- Watermark and ISO 9001:2008 accredited
- Classified as non-hazardous for transport by road or rail
- Contains no volatile organic compounds
- Range of sizes to suit any job
- Proven product performance over several decades in applications around Australia and overseas
- 2 year shelf life if unopened and stored in a cool, dry, well-ventilated place out of direct sunlight

### Technical Data

Size Range	500g – 4kg
Manufacturing Standard	WMTS 014:2016
Licence number	<a href="#">WMKA00103</a>
Quality Management System	ISO 9001
Certificate Number	<a href="#">QEC 0419</a> (SAI Global)

INGREDIENT	% WEIGHT
Water	>50
Oleic acid saponified mixture 112-80-1	>20
Approved proprietary bactericide	<0.05

## Product Range

Vinidex Code	Quantity	Min. (Pack) Quantity	Carton Quantity
82393	500g	1	18
82395	1kg	1	12
82396	2kg	1	5
82397	4kg	1	4

## Product Application

PVC and DICL Pipe		
Diameter	Approximate Joints/500g	Approximate Joints/1kg
80	17	34
100	16	32
150	15	30
200	14	28
225	13	26
250	11	23
300	9	18
375	8	16
450	6	12
575	5	10

StormPRO and StormFLO Pipe		
Diameter	Approximate Joints/500g	Approximate Joints/1kg
150	19	38
225	13	26
300	9	19
375	8	15
450	6	12
525	5	10
600	4	8
750	3	6
900	2	5
