

Priming Fluid - Red

for reliable, leak-proof jointing of PVC pipes and fittings

Vinidex red priming fluid is a solvent based product which is specially formulated to clean and prime PVC pipes and fittings so they are free of dirt and grease. The application of PVC priming fluid is essential preparation prior to the application of PVC solvent cement to ensure a satisfactory bond is achieved. It is fast drying and leaves a pinkish stain to indicate where the PVC pipe has been correctly primed.

PART OF THE VINIDEX PIPE JOINTING FLUIDS FAMILY

- Conforms to AS/NZS 3879
- AS/NZS 4020 approved - suitable for use in contact with drinking water
- Watermark and ISO 9001:2008 accredited
- All packaging is Dangerous Goods approved
- Engineered cap to minimise the risk of leaks
- Range of sizes to suit any job
- Proven product performance over several decades in applications around Australia and overseas
- 2 year shelf life if unopened and stored in a cool, dry, well ventilated place out of direct sunlight

Technical Data

Size Range	250ml – 4L
Manufacturing Standard	AS/NZS 3879
Quality Management System	ISO 9001
Certificate Number	QEC0570 (SAI Global)

INGREDIENT	% WEIGHT
Methyl ethyl ketone	>95
C.I. Solvent Red 24	<1
Non-hazardous materials	<10

Product Range

Vinidex Code	Volume	Min. (Pack) Quantity	Carton Quantity
82341	250ml	1	36
82342	500ml	1	20
82343	1L	1	12
82344	4L	1	4
