

VIKING JOHNSON™ **UltraGrip**

The UltraGrip is designed to offer a solution to joining plain-ended pipes that require end load restraint.

The UltraGrip range now meets Australian standards, from DN40-DN600 in PN16 and PN10 Working Pressures.

Pipe Materials

**NOW
WSAA
APPRAISED**

Grips and seals on most corroded pipes

Wide tolerance of up to 54mm

Up to 8° Angular Deflection

Rilsan Nylon 11 Coating

Grade 316 Stainless Steel Fasteners

Suitable for most pipe materials

Captive bolts for ease of installation

Support Liners required on PE & Thin walled PVC pipe

Support Liners

- Required for all PE & Thin Walled PVC Pipe Connections
- Stainless Steel Construction
- Available for SDR11 & SDR17 pipe ID's

UltraGrip Couplings

- Available DN40 - DN600
- PN16 Rated DN40-DN300
- PN10 Rated DN350-DN600
- EPDM Sealing Sleeve
- 8° angular deflection

UltraGrip Pecat Adaptor

- Available DN80 - DN200
- Factory fitted 500mm PE SDR11 Pipe
- Accommodate 2 electrofusion connections
- 4° angular deflection
